PRIZE OR PUNISHMENT

ABOUT

A hilariously fun, product centered, high stakes game of Tic-Tac-Toe filled with viral, meme-able moments and repeatability!

HOW TO PLAY

PRIZE OR PUNISHMENT is a dramatic Tic-Tac-Toe game package where 2 teams compete for 9 high stakes squares each containing their own mini game. The first team to capture 3 in a row, or, the team with the most money when all the squares are captured wins the round.

Here's the twist, before you can play the mini game and capture a square, we raise the stakes. Ratcheting up the pressure by showing contestants what will reward their success or punish their failure.

The second round gets even more exciting with double the money, larger prizes, and harsher punishments.

After two rounds, the team with the most money moves on to compete in the grand punishment round, where enduring the punishment is the only way to win the grand prize.

ABOUT

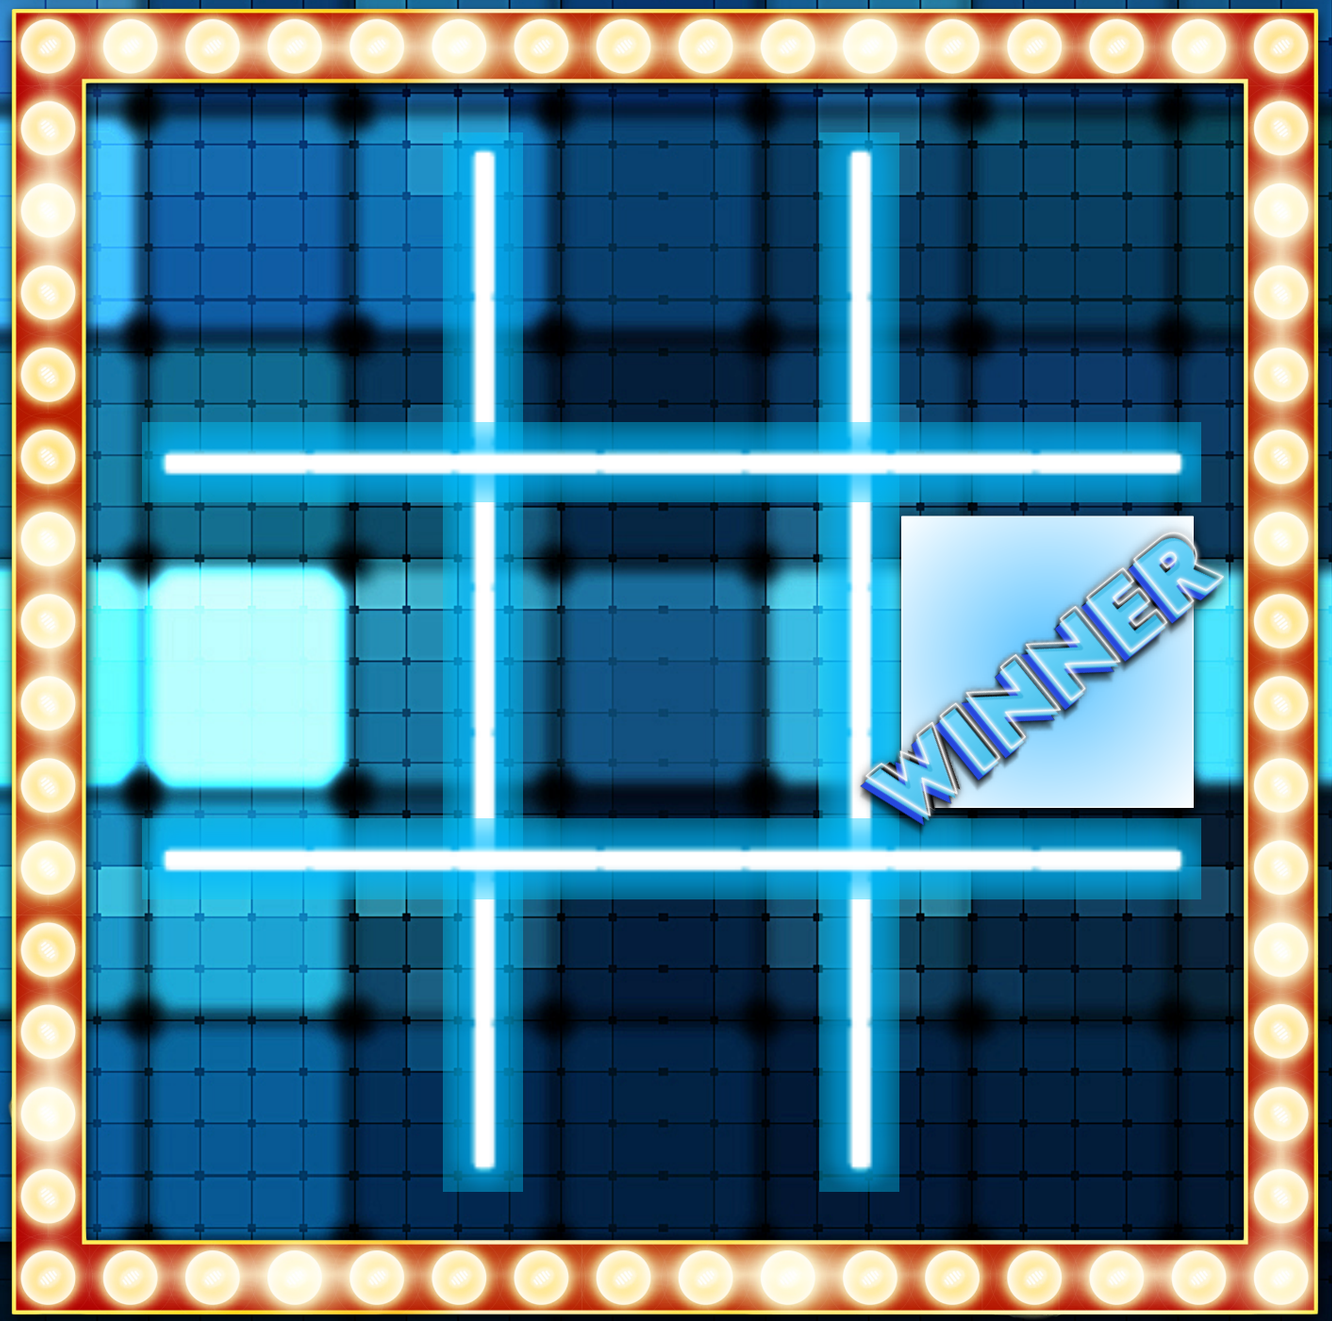
GRAND PUNISHMENT ROUND

The finalist has 3 guesses to discover under which square the grand prize is hidden, unfortunately, the finalist can only guess while enduring a punishment. (hanging upside down, ice cold shower, spiders)

A winning square is secretly determined before the round begins



Finalists must endure a punishment before they can guess which square contains the grand prize
